**Karura** is a Clan Tanchyo-themed Hero for **Ninja All-Stars**. Heroes bring potent new abilities to a player's team that are entirely unique to them. Each Hero is themed to a single clan and make must-have additions for players who pick up the clan box.

**Karura** is unusual among even his rare, adventurous clansmen, for he feels a greater kinship with the Tanchyo's cousins—the eagles—than with any human he has met. Although seemingly distant, **Karura** possess a great inquisitive nature that has led him to tinker endlessly and invent many wonderful things. His latest invention—a contraption of snares, wires, pulleys, and hooks—allows him to fly between trees, cliffs, and rooftops with all the grace and speed of his beloved avian cousins.
